Free migration by experts

Leave your migration worries to us

Our onboarding services include hassle-free migration. We scrutinize, brainstorm and evaluate your requirement and create a flexible migration plan for all your accounts. We provide zero downtime while the migration is in the process.

Migration handled by experts

Our Microsoft-certified experts evaluate the best method to migrate your accounts to Office 365 and propose a plan for you. Once all stakeholders agree on a plan, migration is initiated using various tools.

Enhanced 24/7 Support

White glove onboarding

When you buy Office 365 from us, you are provided with white-glove premium onboarding services. We take care of the big picture as well as finer details while we bring you onboard.

24/7 expert support

If you have any issues related to Office 365, we are just a click away. Contact us any time 24/7 via phone, chat, or e-mail. If your requirements are complicated, our senior engineers are always available.

Low lifecycle costs

No long-term contracts

We do not tie our customers with lengthy contracts. You can pay month-to-month. Or you can save money with an annual plan which includes free migration for Premium plans.

Save on support costs

When you sign-up for our annual offering, there is essentially no difference between Microsoft pricing and Apps4Rent pricing for the first year. We claim to have the best pricing in the industry along with an excellent support.

Premium provider

Microsoft-Certified Cloud Solution Provider (CSP)

Besides providing the excellent support for Office 365 services, we have our own Hosted Exchange, Hosted SharePoint, Hosted Project Server and Virtual Desktop offerings. We are a Microsoft-certified Cloud Solution Provider (CSP) with Gold and Silver certifications.

Pioneering cloud hosting service since 2003

We have been providing support and services for various Microsoft technologies such as MS Exchange, SharePoint, MS Project Server, Skype for Business to name a few. Only a few CSPs can boast of such extensive experience and Apps4Rent is one of them.
